

# Digital transformation, within the reach of SMEs

Today, digital transformation is no longer exclusive to large corporations. SAP Cloud ERP offers small businesses a cloud-first solution, adapted to their pace and scale, which drives:

- Operational agility and efficiency
- Constant innovation with emerging technologies
- Sustainable and scalable growth

Because it's not about being big to think big, it's about betting on the right technology to grow today and be ready for the future.

## SAP Cloud ERP: Innovate and Lead from Day One

### Why choose SAP Cloud ERP for your SME?

- ✓ Based on SAP S/4HANA Public Cloud.
- ✓ Process automation from the beginning.
- ✓ Real-time data analysis.
- ✓ Incorporation of AI, advanced analytics and predictive automation.
- ✓ Continuous upgrades without disruption or cost overruns.

### Differential advantage:

- The platform is always up to date.
- Access to global innovations automatically.
- No need for complex future migrations.

## Key benefits for your business

### Innovate without fear of tomorrow

- Continuous access to the latest technologies
- Public cloud solution, always up to date
- Greater security, scalability and flexibility

### Scale without limitations

- Expand operations to new markets and geographies
- Adjust resources and users according to your needs
- Always comply with local and multi-currency regulations

### Growth based on industry best practices

- Pre-configured content by industry
- Fast and customized implementation: manufacturing, distribution, services, technology, etc

## With SEIDOR, you grow without limits

### Your trusted technological partner

- + 40 years of experience boosting SMEs
- One of SAP's main global partners
